March 13, 2020

Dear Families,

Due to evolving factors regarding Coronavirus and mandated closures, Southside School is preparing to close school on Tuesday, March 17, 2020. As of now, our estimated return date is Monday, April 27, 2020. There will be no after school activities on Monday.

We are working to develop a plan in order to provide instructional opportunities and food services. In addition, Southside School is offering childcare for first responders and employed health care workers. We are asking families to complete the attached survey, so we can plan accordingly. Our goal is to provide food services at designated locations (currently at Southside and Shelton High School). We are also looking at loaning Chromebooks with parent/guardian permission. Intended Chromebook usage would include on-line educational activities.

We know that this is a challenging and compromising situation for families. Our objective is to work with our community to develop safe and creative solutions. We thank you for your support and patience. Additional information will be provided on Monday.

Student Names and Grades:_____

What food services are being requested?
Breakfast Yes No
Lunch Yes No
Days of the week food service is needed:_____

Preferred pick-up location? Southside School Shelton High School

Are you a first responder or employed health care worker needing childcare? Yes No
