September 1, 2018

Dear Parent or Guardian:

The Administration and staff at Southside School District recognizes that many parents would like to play a greater role in their child's education. To make it easier for you to get involved, you may access student information anytime day or night.

Parents can view their child's food service account, grades (Middle School only), attendance and demographic home information.

The software that makes this possible is our student information system, known as Skyward Family Access™. Family Access is available through Southside School District's website found at www.southsideschool.org. To use this software you need to have access to the internet through (at the very least) Internet Explorer 4.01 or Netscape 4.08 and you'll need to allow or accept Cookies, and have a username and password.

Parents/guardians need to complete the **Family Access Registration Form** and turn it into the Southside School District Office. Office hours are 7:30 am to 3:30 pm. Once we receive this form, you will be emailed a username and temporary password for access.

The username and password assigned to you will work for all the children in your household regardless of grade level, so you only need to fill out one application. In the event you should have a problem, you may contact Terry Tyler at (360) 426-8437.

DISCLAIMER:

Please note the Southside School District does not support off-site technology or software applications. To allow or accept Cookies, please refer to your Internet browsers Help contents and for specific computer or software problems, please consult your computer dealer or software vendor.

Sincerely,

Doris Bolender
Principal/Superintendent
