## Permission for Student Placement in Title I / LAP

Dear Parent/Guardian,

\_\_\_\_\_ has been selected to receive additional academic assistance through our Title I/LAP program. This academic assistance is in addition to the reading and math instruction received on a regular basis.

Title I is part of the Elementary and Secondary Education Act, the country's largest Federal Aid-To-Education Program. LAP is the Learning Assistance Program funded by the state. Both the Federal and State government provide funds to local school districts for supplementary assistance to students who are achieving below their grade level in a basic skills area.

Your child will receive this additional assistance during a portion of his/her regular reading and/or math times or during an afterschool program option. This assistance may be in the form of small group instruction, in-class support, or a combination of both. All efforts are made to provide these services without interruption your child's regular classroom activities.

Your child qualifies for the following services:

Reading Support	_____
Math Support	_____

\* These services will be provided throughout the school year or until your child meets grade level requirements.

An important part of our program is a Parent Advisory Council (PAC) which provides input to the district on the design and operation of the program. As a Title I/LAP parent you are a member of the PAC and are invited to participated in our PAC meetings (dates and times to follow).

To provide your child with this additional academic support, we need your signature below. Please sign this form and return it to your child's teacher as soon as possible. If you have any questions, please contact the principal.
